

## COMPREHENSIVE WAYS OF EXPANDING JOINT STOCK SOCIETIES

Kakhramonova Khusnora

TSUE, Student of the Faculty of Finance and Accounting

**ABSTRACT:** The main goal of the article is to develop a scientific proposal and practical recommendations regarding the importance of corporate financial strategy in ensuring the financial stability and growth of joint-stock companies. Financial strategies of several joint-stock companies in order to cover such goals as maintaining financial stability, increasing labor productivity, increasing production and export indicators, achieving energy efficiency, modernizing production, and achieving an increase in share value by implementing technical and technological re-equipment. analysis was carried out.

**Keywords:** financial strategy, marketing, corporation, consumers, corporate environment, corporate management, investors, investment activities, banking, SWOT, finance.

Establishment or reorganization of a joint-stock company legal entity (add can be organized by sending, dividing, extracting, changing). The decision to establish the society is made by the founding meeting. About establishment of the society in case the society is founded by one founder the decision is taken by this founder individually. The founders of the society they conclude a mutual establishment agreement on its establishment, in the agreement their the procedure for joint activities related to the establishment of society, society the amount of the authorized fund (authorized capital) should be distributed among the founders types of shares, the amount of the fee to be paid for them and its payment procedure, rights and obligations of the founders regarding the organization of the society is determined. The founders' vote on the decision to establish the society results and establishment of the society, approval of its charter, society adopted by the founders regarding the formation of management bodies should reflect decisions.

On establishing the society, approving its charter and the founder by the company to pay for the company's shares securities, other property rights or has a value expressed in money decisions on approving the monetary value of other rights

adopted unanimously by the founders. With the participation of foreign investors organization of the society is in accordance with the laws of the Republic of Uzbekistan is done.

Shareholding when a state organization is transformed into a joint-stock company the decision on the establishment of the society is the body authorized to dispose of state property accepted by The number of founders and shareholders of the company is not limited.

The legal and natural persons are recognized as the founders (founder) of the society.

If the law of the President of the Republic of Uzbekistan or Uzbekistan The decision of the Cabinet of Ministers of the Republic does not specify otherwise if so, state bodies can be the founders (shareholders) of the society it's not.

When financial planning is carried out based on prospective financial analysis

the business environment in which the economic entity operates as the main aspect

comes out. In turn, the business environment is related to the financial and economic activities of the economic entity covers the system of influencing conditions and various internal and external factors. Economist M. Porter's "Five Forces of Competition" model is also an external environment focused on analysis. "Kokan mechanics" which is being researched in our dissertation work M. Porter's analysis of the external financial environment on the example of a joint-stock company We implement the "Five Forces of Competition" model.

**CONCLUSION.** Heads of various categories of joint-stock company, leading experts and employees work with the latest technologies, as well as computer equipment maximum mechanization and automation is necessary. Correct definition of the financial strategy and full implementation on time that the corporate structure will be superior in the competition in the future provides. In general, in ensuring the strategic success of commercial organizations financial strategy plays an important role. In enterprises according to their field of activity can introduce and apply various financial strategies. Recommended important strategies can be distinguished:

- according to financial planning
- according to financial goals
- according to the definition of the goal
- according to periodicity

In the development of the financial strategy of the apartment, it is necessary to take into account its characteristics and choose and implement based on financial managers possible.
